EXTRA SESSION MAY DEAL WITH TARIFF PROBLEM

Growing Determination on
Part of Democratic Leaders
to Skip Currency.

Washington, July 15—Developments of the last week at both ends of the capitol have indicated a growing determination on the part of the Democratic leaders of congress to pass a tariff bill and wind up the work of the extra session without action upon currency reform or any other important subject.

The tariff revision bill is to be pushed to completion and laid before the Democrats of the senate in caucus before the end of this week. In the meantime notwithstanding President Wilson's repeatedly expressed desire to see some positive action taken towards a reform of the nation's financial system the controlling forces of the party in both house are showing a disposition to defer action on monetary reform until the regular session opening next December.

The arbitration treaties sent in sometime ago extending existing agreements with Great Britain and several other countries have not been touched in the senate for nearly ten days. In the meantime, the President and Secretary Bryan are understood to have urged Senators Chamberlain and O'Gorman to withdraw their opposition to the British treaty and allow its ratification.

This will be a business week among the Democrats of the senate in charge of the tariff bill. Beginning tomorrow morning Senator Simmons, chairman of the finance committee will meet all day with his colleagues and insist upon results. The majority members of the finance committee will meet all day with late into the night passing on sub-committee reports. Last week in four days the committee approved about half of the bill with the changes made by the sub-committees, and Senator Simmons proposed that the committee complete the rest of the measure by Wednesday night.

BURNED TO WATER'S EDGE

Schooner Paul Palmer, Well Known
at this Port, Destroyed Off
Cape Cod on Sunday

The five masted schooner Paul Palmer, one of the largest vessels in the New England coal carrying trade, a frequent visitor to this port was burned to the water's edge on Sunday seven miles north of Race Point, Cape Cod. The crew was taken off by the fishing schooner Rose Doherty, while the steamship Massachusetts bound from Boston to New York stood by in case other assistance was needed.

The burning vessel was first sighted by the keeper of Highland Light. Smoke and fire were pouring out of the forward hold and the flag was flying from a blazing mast, union down. The keeper started to call for aid as the schooner, the Massachusetts and a tug came into view. All three made for the burning vessel, and the fisherman and tug reached her an hour before she was destroyed.

The fire gained rapid headway from the time the keeper first picked up the schooner, and the shore observers saw the crew lower the small boats over the sides. Just as the men reached the Vigilant the two forward masts of the Paul Palmer toppled over and an hour later when nothing remained but the smoldering bulk, the fishermen with the rescued aboard resumed her voyage.

The crew of the Palmer with Capt. H. B. Allen, his wife and their guest Miss Katherine Dunn of Dorchester were brought into port Sunday by the fishing schooner Rose Doherty, which stood by the Palmer when she was burning. No one was hurt.

Hose Cut off by Fire
Captain Allen said his hip took fire sixteen miles off the cape, the flames

LEAP FOR LIFE WHEN MOTOR BOAT EXPLODES

Four Lynn Men Rescued After
Craft Burns in Narragansett Bay.

Providence, June 15—Frank Miskowsky, of Lynn, formerly of this city, with three companions from Lynn had a thrilling escape from death in Narragansett Bay late this afternoon when Miskowsky's motor boat blew up and the whole party jumped in the water.

All of the men were burned about the hands and the craft was burned to the water's edge.

The explosion and fire formed one of the most spectacular accidents of recent years on the bay and was watched by thousands at Rocky Point, three miles away to the west.

According to the story told by Miskowsky, who though a resident of Lynn maintains his membership in the Edgewood Yacht Club, he and his companions saw smoke issuing from one of the compartments at the rear of the boat. They shut off the power and found a lively blaze in a bundle of rugs, near the stern. Having as they thought, extinguished the flames, they returned to the wheel near the bow.

Within a moment came a terrific explosion as the 35 gallon gasoline tank which was about half full blew up. Instantly the boat was a mass of flames. Miskowsky for an instant attempted to put out the blaze that surrounded him and his companions. All four went overboard and when one member clung to the skiff, which was trailing, the others made their way in it and clung to the sides until other craft which were in the vicinity had come up to the spot.

The men were taken from the water and the boat was deserted, but it was later towed ashore by Captain John B. Doyle of the Washington Park Yacht Club. Miskowsky and his companion returned to Lynn early in the evening.

TROUBLE IS EXPECTED

Constables Will Evict Striking Ipswich Mill Hands from Mill Houses Today

Ipswich, June 15—With full authority from the local district court and guarded by a large detail of police constables of this town will begin tomorrow morning evicting members of the Industrial Workers of the World from 15 houses owned by the Ipswich Hosiery Mills, whose I. W. W. operatives are on strike.

It is expected that trouble will ensue, and rumors of every sort were afloat tonight. While the strikers themselves made no mention of tomorrow's plans for dispossession, they were particularly active today. At the largest mass meeting they have yet held a new issue was introduced into the strike by their decision to ask for an eight hour day in addition to their demand for a twenty per cent increase in wages.

The gathering of the strikers in the great yard outside of the New Green church was a tumultuous one. James McVey of Haverhill, one of the speakers pledged the support of the Socialist party of Massachusetts and assured the striking operatives that the Socialist party would see that they were supplied with funds to carry on their fight against the hosiery mills.

Other Socialists who spoke at the meeting were J. McMillan of Beverly, John Bailey of Boston, John Murphy of Lawrence, and Henry Benedict of Boston. Later these same men with the strike committee, met the Essex county Socialist Federation and three cheers were accorded a speaker who declared conditions were ripe for revolution.

L. J. Glatkas, one of the I. W. W. leaders who has been taking an active part in the strike here, denounced Chairman Hull of the Board of selectmen.

"Three weeks ago the chairman of the board came to one of our meetings and said we had one God, one country, one aim," shouted Glatkas. "Now his police department is \$8000 in debt, and he has hired men to act as assassins, murdering the wives and sisters of the strikers. He is not here today." Glatkas concluded by calling upon the workers to cheer for a revolution, and both he and McVey told the operatives the red flag was the only flag to follow.

Each speaker at the mass meeting in the churchyard was greeted uproariously, and the strikers were especially demonstrative when a letter was read from their erstwhile leaders, Nathaniel Hermann and Carroll L. Pingree, who with Mrs. Pingree are held without bail, charged with the murder of Nicolaia Jandelopolou, the woman operative who was killed in Tuesday night's riot.

At the same time tomorrow that the constables start serving the eviction writs which were granted by the court yesterday, the hearing of the 15 men, women and girls charged with rioting will be resumed before Judge Charles A. Sayward in the district court. When the hearing adjourned Saturday Judge Sayward declared the case must be concluded Monday, that the longest into the murdered woman's death must be started.

PRESTON WILL IS CONTESTED BY A NEPHEW

Testator at 70 Married to a
Young Kittery Woman.

A contest of the will of Thomas Preston of Charlestown, who at the age of 70 married Lillian A. Manson, 29, of Kittery, Me., after knowing her but a month, will be made by Frank E. Mace of Everett, a nephew, on the ground of undue influence.

The marriage took place Feb. 1, after Miss Manson had been housekeeper for Mr. Preston about a month.

Preston was for 35 years an officer at the state prison. He was a Civil war veteran, a sergeant under Col. Hingham in the 1st Massachusetts regiment, and he was a member of the Minute Men Company of Cambridge, the first from that city to go to the war.

Clarence W. Rowley appears in the case in a number of ways. He was for years attorney for Preston. He was made executor of his will. He is also a beneficiary under it, and he married Preston and Miss Manson as a justice of the peace.

After the three witnesses to the will had testified to the signatures in the Probate court on Friday Judge George continued the case till June 27 to allow John A. McCaig, who had just been retained by Frank Mace, the contesting nephew, to prepare his case.

Preston's will, made on Aug. 29, 1912, left \$500 to Woodbury A. Witham, \$1000 to Clarence W. Rowley, and the residue to Cornelia Emma Davies and to Clarence W. Rowley, to be divided equally.

The testator made a codicil materially changing his will on Jan. 7, 1913, shortly before his marriage. This codicil revoked the \$500 bequest to Witham and left that sum instead to Miss Manson and to her sister, Elizabeth E. Rice. It confirmed the \$1000 bequest to Rowley, but it revoked the bequest of the residue of the estate to Rowley and to Mrs. Davies, and gave it all instead to Lillian A. Manson with the words, "whom I am about to marry."

SAILORS DEFEATED.

Fort Constitution Team Victorious Over Nine from U. S. S. Montana.

The 156th Company, C. A. C., of Fort Constitution defeated the U. S. S. Montana, 15 to 5, Sunday afternoon on the government reservation at Fort Starbuck. The pitching of Kabeika and the stick work of Wiscomb, Hoffman and Canack featured for the soldiers, while a sensational catch by Beck in center field, resulting in a double play, was noteworthy for the sailors. While on the side lines in the third inning, Caffery was hit by a pitched ball and forced to retire. The score:

INDEPENDENTS WON.

Defeat the U. S. M. C. Team by a Score of 10 to 4.

The Portsmouth Independents defeated the U. S. M. C. Sunday afternoon, 10 to 4, on the Naval Prison grounds. Pilgrim pitched a strong game, striking out 10. Heardon, Davis, Newhall and Howard starred for the winners and Wilson excelled for the marines. The game was witnessed by the largest crowd of the season. The score:

PLAN FOR ADDITION.

Portsmouth Elks Considering the Spending of \$20,000 to Improve Home.

Portsmouth Lodge of Elks is considering plans for an addition to the Elks' home on Pleasant street to cost about \$20,000. Plans and specifications were submitted to the members at the last lodge meeting by John Sugden of Sugden Brothers. The building committee consists of Morgan S. Dada, Gustave Poyser, Harry E. Philbrook, Harry T. Wendall and Charles F. Shilliner. If the plans are adopted, the lodge will have about twice as much floor space as is provided in the present home. It is said that an addition is needed in view of the big increase in membership.

Sea Breeze Club dances every Tuesday and Friday evening, beginning June 17 at Pythian hall, Newcastle. Barges leave Parade at eight o'clock, returning after the dance. ch (w.j.n.2)

this songs that we are holding this festival of the flag.

In behalf of Portsmouth Lodge, No. 37 of the Benevolent and Protective Order of Elks I extend to you our honored guest and friends a hearty welcome on this our Flag Day.

Captain C.C. Rogers, U. S. N. Address:

My theme follows so intimately that of His Honor, the Mayor, that I shall enter at once upon the subject.

The day that Congress passed its resolution in relation to the flag, it also resolved that John Paul Jones be appointed to the command of the Ranger, a ship of 16 guns built at Portsmouth, and soon after he habited the new flag on board of her in the harbor of this city. He sailed across to France, capturing two prizes on his way, and entering Quiberon Bay received, on February 14, 1778, the first salute to the Stars and Stripes. To Paul Jones also was assigned the honorable duty of displaying the flag on board the America, the first ship of the line built for the United States and at Portsmouth. At the closing exercises of the Centennial Exposition in Philadelphia, I had the privilege of seeing the flag flown by the Hon. Hannu Richard in her battle with the Scorpions of which John Paul Jones was the hero; it was loaned by Miss Stafford, daughter of the Lieutenant Stafford, an officer of the Bon Homme Richard, who during the battle when

Poughkeepsie, N. Y., June 16 For the past two weeks Charles E. Courtney has been tending his efforts to get the Cornell crew in shape for the big varsity event at Poughkeepsie, June 21, and at the same time he has been working to overcome the defects in the freshman eight made patent by the victory of the Harvard crew at Ithaca recently. There is no question whatever but that Courtney believes that he has a star variety eight, one of the best that he has ever developed. He has been more concerned over the freshman crew and has given more time to its development than to that of the other crews, as the Cornell four has showed the class

usually shown by Cornell crews at this time of the year. As a matter of fact Courtney is banking on sweeping the Hudson again this year and all his energies are being devoted to that end. He was asked recently if it would not be a good thing for the sport if some other crew than Cornell won one of these races. His answer was "Probably yes, but if they do they must come up to our standard. Courtney has stood pat on his variety, thinking it stood well up to his year's eight. He files his four and in spite of predictions to the contrary, he is letting his freshman crew work out their own salvation. He thinks that the defeat with Harvard has significance with reference to Poughkeepsie. At the conclusion of his

present contract, which has three years to run, Courtney will retire as coach of the Cornell crew, according to an announcement he made himself. He may agree after that date to act in a general advisory and supervisory capacity if the right man is placed under him to do the active work, but he says he wishes to be relieved of the strenuous work. Courtney is now 61 years of age. He is completing 28 years of service at Cornell and feels that he is entitled to a respite. Pleasure shows Courtney and the former champion oarsman of the country, Constence S. Tins, talking over the chances of the Cornell crew in the coming regatta. Titus was one of the greatest oarsmen in his day and is now an authority on rowing events.

The flag was shot away, jumped overboard and recovered it.

The relation of the Navy to the flag is a long story, but I believe history bears out my opinion that the service has been true to the priceless legacy of exalted deeds and splendid traditions left by John Paul Jones to his successors, and in whatever clime or in whatever sea, and it should be remembered these traditions date from the first hoisting of the American colors on an American Man-of-War built in Portsmouth.

The Navy has another relation to the flag as an arm of the national defense. It is the expression of the nation's power. Sea power is a phrase made famous by Admiral Mahan. In the sense he used it, its highest meaning is the command of the sea. Carthage fell through the lack of sea power; England's command of the sea led to the overthrow of Napoleon Bonaparte, and the last twenty years have witnessed three wars in which victory fell to those who had the power to command the sea, the United States being one. In the war against Spain, in the tremendous struggle for supremacy, the essentials of sea power are money; but the first is a fleet of battleships, destroyers and other fighting units, manned by a sufficient and properly qualified personnel, both strong enough to annihilate any possible enemy. Nothing short of this will ensure victory. This is a day of splendid tradition among all nations.

Again, the Navy has displayed the flag in all oceans, seas and bays. In the lakes of the Andes has carried it to the headwaters of the mightiest rivers such as the St. Lawrence, the Delaware, the Amazon, the La Plata, the Huangho and the Yangtze Kiang. It has advanced civilization in protecting commerce and defending the weak; it has advanced the cause of Christianity, ensuring the safety of missions and missionaries. Only recently a distinguished officer has dubbed the barriers of the Arctic and planted the flag at the North Pole of the world. In diplomatic Perry negotiated the treaty with Japan with the result so well known; Schufeldt the treaty with Korea; Meade with Siam, and daily it upholds the dignity and consular corps of the United States through its activity, or the moral effect of its presence in foreign waters.

But the Navy's relation to the flag is not confined to war, or the more

Everything from Cellar to Roof
Cor. Green and Vaughan Streets, PortsmouthWHITE PLANNED TO
MURDER MISS WADE

Few Days in Advance of Crime Stated He Was Going to Kill Her—Two Shots Took Effect in Her Body.

Robert White, who shot and killed Jennie Wade and then committed suicide, on Friday evening, deliberately planned to murder the girl and then do away with himself and furthermore announced the fact to his friends days before the double tragedy, but they never dreamed that he was so madly infatuated with the girl to do such a desperate thing.

Last Wednesday while eating lunch with two of his friends, he gravely announced that he was going to kill his girl and end it all, but they thought that he was simply having one of his jealous spells over the girl and did not give it another thought. That same night at 10:30 White called up Mr. Harry Wendell, manager of the A. P. Wendell company, and got him out of bed. He asked if he would do him a great favor by coming up to the store and selling him a revolver. Mr. Wendell refused but he insisted, saying, "It is of the utmost importance that I should have a revolver tonight and I will pay well for it." Mr. Wendell however, refused to come

up to sell him the revolver. The following day he called at the store and did purchase a thirty-caliber Harrington and Richardson revolver, a cheap gun, only paying five dollars for it.

After penning the letter and getting the revolver White made up with the girl and they parted that night on good terms, but the next night he carried out his original plans.

Medical Referee Sherburn on Saturday morning made a closer inspection of the bodies of both the girl and White and found that two shots had hit Miss Wade. The shot which pierced her heart and another shot was found in her left hip a flesh wound. This was overlooked in the hasty examination made by the physicians on Friday night.

TRAINING SCHOOL GRADUATION
To Be Held This Evening at High School.

The annual graduation exercises of the Portsmouth Training School will

be held this evening at the Assembly Hall in the high school building and it is open to the public.

The exercises will be held at 8 o'clock and there are seven graduates. Hon. H. C. Morrison, State Superintendent of Public Instruction, will deliver the address.

MIDSHIPMEN OUT FOR "INAPTITUDE."

It was announced at the Naval Academy yesterday that Midshipman Frederick W. McKee of Newcastle, Pa. a member of the class which was graduated last Friday, had been dropped on account of "inaptitude." This was recommended by Captain J. H. Gibbons, superintendent of the academy on account of unsatisfactory conduct, and was approved by the Secretary of the Navy. Midshipman McKee had passed satisfactorily in his scholastic branches. He was captain of the lacrosse team and a member of the basketball five.

The conduct of two other members of the class was unsatisfactory and their diplomas have been withheld. They have however, been allowed to go on the cruise with the other midshipmen, and they will be commissioned as ensigns if the reports for the cruise are satisfactory. They are Lawson J. Valentine of Brooklyn, N. Y., and Neil H. Gelsenhoff of Oneida, N. Y.

WHEN LIGHTING MATCHES

Avoid trying to light matches on walls, window casings and so on. For a couple of cents purchase a sheet or so of sandpaper and some little brass headtacks. Cut the paper in squares. Tack one of these in each room directly under the gas jet.

WHERE IS YOUR FAVORITE LOCATION
FOR THE NEW ARMORY BUILDING?

Since the appropriation for the new armory has been allowed by the legislature, there appears to be much discussion as to where the home of the militia will be located. To get the idea of the most favorable site, the HERALD invites the people to vote on the matter and will print each day the following coupon, which can be filled out and sent to the City Editor. In due time the result will be published.

Fill out the following blank and send to The Herald.

PORTSMOUTH HERALD ARMORY VOTE COUPON

My favorite location for the new Armory is:

BABY SAVING CAMPAIGN
IS BEING WAGED

What the American cities are doing and can do toward preventing infant mortality and the high death rate of children under 5 years of age is the subject of a bulletin now in press by the Children's Bureau. It is the purpose of the bureau to issue a similar bulletin annually and in time to make it a complete manual for municipal and philanthropic activities in the direction of child welfare. Summer campaigns for babies' lives have been waged with such marvellously good effect in some cities, that it seems to the bureau important to enlist the energies of as many cities in this work as possible. To this end it will be helpful to collect and present for the information of all, the little or much that is being done by the various cities.

FEATURES OF A SUCCESSFUL
BABY SAVING CAMPAIGN

Encouragement of Breast-Feeding
It is estimated that a baby nursed by its mother has approximately ten times the chances to live that a bottle-fed baby has. All welfare workers, therefore, are advised to encourage mothers to make every effort to carry out this most important maternal duty.

Inspection of Milk Supply
A clean milk supply is a fundamental need. The ideal is: Nothing short of clean milk for everybody. But the need for the prompt remedy of bad milk conditions is more urgent in its relation to the welfare of babies than to that of adults, since dirty milk is largely responsible for the occurrence of diarrhea and enteritis, the most frequent causes of death among infants. The remedy lies in the intelligent and effective inspection of farms, the means of transportation, and the shops where milk is sold, and in ordinances governing the sale of "dipped" or "loose" milk.

Milk Stations
A constantly increasing number of cities of all sizes are establishing milk stations and dispensing milk, whether pure whole milk, certified, whether pure, pasteurized, or sterilized milk to mothers of babies that must be bottle fed. Some of the cities in which such institutions are maintained are: Albany, Baltimore, Boston, Buffalo, Dayton, Detroit, Hartford, Honolulu, Indianapolis, Kansas City, Mo., Lawrence, Mass., Louisville, Lowell, Milwaukee, Newark, New Bedford, New Haven, New York, Peoria, Pittsburg, Providence, Rochester, St. Louis, Springfield, Ohio, Waterbury, Wilkes-Barre, Worcester, Yonkers, Utica.

The milk station is simply a room sufficiently large to accommodate the patrons and equipped with a large ice box, a desk, some chairs, and a table. An ordinary store is suitable for a station and sometimes, as in the case of the station at Utica, N. Y., a school room may be used for the purpose. The station is usually under the

charge of a nurse, and a physician is in attendance at stated hours.

Baby Clinics.

Baby clinics are an almost inevitable outgrowth of the milk stations. It becomes apparent at once that many mothers need advice as to the care of their babies, especially those who are sick. Sometimes the clinic is established by the wholly volunteer services of doctors, who examine every baby presented at the milk station, weigh it, prescribe its diet, and tell the mother when to bring it back.

Visiting Nurses.

It is the opinion in some cities that visiting nurses, sometimes called "Instructive Visiting Nurses" should take precedence over all other forms of welfare work. The duties of such nurses consist in following up the cases brought to the clinics and in general welfare work in connection with the babies in the congested districts.

Prenatal Care of Expectant Mothers.

Municipalities are just beginning to awaken to the importance of this kind of work and to understand that much of the waste of infant life is due to causes that were operative before the baby was born. Some cities have a special maternity ward which gives all her time to these cases; other cities direct the general nurses to take charge of them.

Instruction of Mothers.

Since it is useless to send pure clean milk into dry homes to be handled by an ignorant mother or under child instruction of the mother comes a necessary feature of the milk station or a part of the duty of the visiting nurse. The instruction is often supplemented by public lectures.

Little Mother Leagues.

The value of training school girls who are care-takers of little children in the care of babies is regarded as of immense importance, not only in the improved care which is given to the babies in their charge but in the influence which it cannot fail to have in the prevention of infant mortality in this and the next generation, and the organization of the "Little Mother Leagues" or "Little Mother Classes" forms an important part of the welfare work in most large cities.

Destruction of Flies.

The house fly as a death distributor is only recently receiving the attention it deserves. Flies carry infection not only to exposed milk but directly to the baby's mouth or to the nipple of its bottle. Insistence upon screens for the baby's rooms and for the baby's bed is a part of the campaign against infant mortality; and the work should go even further than this and should include the destruction of flies by every known method and removal of the breeding places.

Whether or not the stable fly is the

only carrier of the germ of infant paralysis it is certainly one, probably the principal carrier. Upon the opening of summer a thorough listing of all horse stables and ivery barns, whether public or private, is made by such cities as Seattle and Indianapolis, and complete measures for the control of the fly-breeding places are instituted.

Other Features

Attention to housing conditions, to the thorough watering of the streets, and to the question of fresh air and ventilation is urged and the distribution of circulars, pamphlets, and other printed matter containing advice concerning the care of the baby is considered helpful. Sometimes the circulars are printed in several languages; and in the appendix of the bulletin will be found specimen "Save the Baby" circulars in nearly every necessary language, ready for reproduction.

Birth Registration and Graphic Statement of Births and Deaths.

In conclusion the bulletin advises the city health officials to establish a continuous graphic statement of the births and deaths of babies, kept by means of different colored pins to be placed day by day on a city ward map and to thus keep informed as to the special points of danger; and urges prompt registration of births in order that the baby may be brought under observation as soon as possible.

BUILDER OF P. K. & Y. DEAD

Amos F. Gerald Famous Electric Road Promoter.

Portland, Me., June 15.—Amos F. Gerald of Fairfield, one of the planners in electrical development in Maine and the builder of half a dozen electrical roads, died at a local hospital Saturday evening of apoplexy, aged 74 years.

Mr. Gerald was the first man in the state to install town and city electric light plants. Later he associated himself with a syndicate of capitalists and constructed electric interurban roads between a number of Maine cities. Those have since passed into other hands.

The last road he built was the Fairfield & Shawmut line, of which he was president. Mr. Gerald was born in Benton, but lived in Fairfield all his life except for two years in New York. He is survived by his widow. He built the Portsmouth, Kittery & York electric road the first section of the present Atlantic Shore Line Ry.

MARKING LINEN

When marking linen it will be found easier to write on it if the corner to be marked is dipped into cold starch, then gone over with a hot iron. The writing will then be quite smooth and the pen will not scratch.

Post Toasties

Women

Ashurst on the Constitution.

It was rather a good thing that lately Arizona has come into the union. For if it hadn't, there could not be any Ashurst in the United States Senate today. And if Ashurst were not there, nobody would have thought of the great truth which this enterprising statesman discovered. What we mean is the new, up-to-date view of the Federal constitution taken by Senator Ashurst. None of the great writers, statesmen or jurists had ever thought of it before, it seems; and yet there it is as plain as can be, now that Senator Ashurst has pointed it out. What Senator Ashurst says is this. He is speaking of the two amendments to the constitution, recently adopted. Says Ashurst:

"The adoption of these amendments, in addition to the valuable reforms they will bring about, has convinced the American people that our federal constitution is a living, breathing, dynamic force, that protects persons as well as property, and that it is not a procrustean bed of fixity, incapable of amendment or change."

Few of us suspected that the American people have hitherto been in danger of looking upon the constitution as "a bed of fixity." However, it is all right now. "Ashurst tells us—and he knows what he is talking about. "A living, breathing, dynamic force." That sounds well, doesn't it? Particularly the "dynamic."

Ashurst, it seems has been "lumberjack, cowboy, clerk and cashier in store, newspaper reporter, hod carrier and lawyer"—so he declares in the congressional directory. We guess he discovered that "living, breathing, dynamic force" some day when he was reporting for a newspaper. What a live reporter doesn't pick up is not worth noticing. Webster defended the constitution. Ashurst has advertised it.

Students' Summer Jobs.

The sensible custom of working through most of the long summer vacation seems to be holding its own among college students, and this summer, as usual, classically educated young men will collect fares, pile boxes and serve meals; men studying for the ministry will sell soda water, promising young physicians-to-be will serve as railroad brakemen, future lawyers will go to work renting bathing suits and so the misfit applications will go, from the head of the class to the foot. However, though summer employment seldom puts a man in the right place, the college boys thrive on their often distasteful toil, for the experience is a thousand times more valuable than the salary. Knowledge of any industry or business is worth possessing, whatever one's ambitions. Whether the youth works at a summer resort or in a mill, he is gaining a taste of the world not provided by even the greatest college, and what he learns during his two or three months of temporary wage-earning may later prove worth more than the teachings of a whole shelf of his school books. It would be well if every college student in good health were put to work in summer, regardless of father's gold. There would be more democracy in college, and when graduation day came, our insulations of higher learning would turn out a less helpless lot of young citizens.—Brooklyn Times.

Irresponsible Husbands.

The young husband who prefers the poolroom to his home, and the company of gamblers to that of his wife and children, is not rare in Chicago. The poolroom habit acquired by the boy sticks to the father. When such an individual, however, gambled before he had undertaken family responsibilities, he alone suffered. As a married man the loss of a week's wages often means that his wife must apply to charity for aid. There is at present no law upon the statutes under which such an irresponsible husband can be effectively prosecuted and made to take care of his family. The law under which action must be taken against him is that of wife abandonment. But this man cannot be said to have abandoned his wife. He merely neglects her.—Chicago Tribune.

Flies vs. Babies.

A few grown persons may die of heat in Chicago this summer. A considerable number will be described as dying of heat who only happen to die during hot weather. The babies, who furnish a majority of hot season victims, will die, not of heat, but of filth, and mainly of filth carried by flies. If flies could be abolished, the digestive troubles which scourge children during the summer would show a remarkable decline. Hot weather is unavoidable. Flies can be dispensed with. Do your swilling early.—Chicago Journal.

Too Much to Hope!

Is it too much to hope that some time somebody will invent a simple, self-interpreting, ten-word Supreme Court decision?—New York Tribune.

SECRETARY DANIELS TO HEAR NAVY YARD WORKMEN

Secretary of the Navy Daniels has granted a request for an interview by the workmen of the navy yard on the occasion of his visit here Tuesday. The interview was requested by R. V. Noble, the Secretary of the Central Labor Union, and he received the following telegram Sunday:

R. V. Noble, Secretary, Navy Yard, Workmen's Association: The Commandant will arrange after view at 4:30 Tuesday afternoon for representatives of yard workmen to see Secretary of the Navy.

Signed, Leigh E. Palmer, Aide. It is not known who will make up the committee who will see the Secretary and go over what grievances they have until a meeting which will be held this evening.

CAPTIOUS CLEWS

More Trifles That Have Trapped Clever Malefactors

One of the most amazing and in-credible clues was that brought to light in a case in the Lambeth police court.

While patrolling St. John street, Clerkenwell, a policeman, found a finger with a ring on it fitted to a spike on the top of a gate.

He forthwith arrested the finger, which was subsequently examined by Scotland Yard finger print experts. It was then discovered that the finger belonged to a man known to the police, who had to admit ownership.

The finger had been torn from his hand while he was climbing over the gate. Criminals not infrequently leave their finger prints to betray them, but this is the first time on record that one has ever left his finger.

Unusually large feet proved the undoing of a certain burglar at Liverpool on one occasion. While erecting a crib in one of the suburbs he took off his shoes which he left beneath the window.

Pain was against his enterprise, however, for no sooner had he climbed through the window than an alarm was raised and he had to climb through the window without his undergarments. These were handed to the police who owing to the unusual size of the shoes, were soon able to discover their owner.

Writing of shoes, an incredibly slender clew was sufficient to lead to the tracing of the perpetrator of the murder of a woman and child in the United States.

A well known detective was called to the ruins of a house that had been burned down in a way which to the eyes of the unsuspecting individuals, showed nothing suggestive of a crime. The detective, however, picked up a handful of ashes, a scrutiny of which enabled him to declare that the two persons had been murdered, but that the murder had burned down the house.

Looking carefully around he spied a headmark in the ground, and he at once set to work to find the wearer of the hat that had made the headmark.

In due course he succeeded in his quest, and the maker of the head mark in question was convicted of the crime.

Almost as hopeless a clew proved sufficient to establish proof against a housebreaker in Staffordshire, who left the impression of the seat of his corduroy trousers in the dust on a window sill.

A tiny atom of glass enabled the police of working to establish proof. A plate glass window had been completely smashed, but how or why there was nothing to show.

Seeing a petticoat soldier hanging about the neighborhood in a suspicious manner a constable took him into custody. There was nothing to connect him with the assault on the window until it was noticed that the metal head of a cane he was carrying was slightly indented.

How Newspapers Can Aid Advertisers.

A former advertising manager of one of the largest drug concerns in the United States, in a forceful speech before a New York Club, said newspaper men were in a position to render advertisers valuable co-operation.

It was his experience that his salesmen were not able, generally speaking, to report conditions in local fields as they should be reported. The editor of the local paper, he maintained, was best qualified to supply national advertisers with reliable information concerning his particular locality.

This is a subject worth thoughtful consideration by publishers generally, and it should also bring to the mind of the national advertiser the universal usefulness of the daily newspaper—the one medium of communication with everyone, everywhere.

Her Toothbrush Crusade Among Tots of City's Poor a Success.

Photos by American Press Association.

Miss Theora Carter, president of the Good Cheer society of New York city, will extend her toothbrush crusade among the boys and girls of the city playgrounds this summer. All winter and spring she has waved the brush above the heads of the youngsters of the tenements and has accomplished much good in instilling habits of teeth cleanliness among them. In many cities the teeth of the children of the poor afford a problem for school doctors and dental clinics. Miss Carter's idea is to get the children so interested in the daily use of the brush that they will carry the habit back to their humble homes.

Closer examination revealed a very small particle of glass imbedded in a dent in the cane, and the prisoner admitted his guilt.

A trifling circumstance traced a chicken thief at Ashford. A brood of chickens were stolen from a farm, and on examining the scene of the robbery the police found a portion of a geranium bloom.

A constable discovered that a man from a neighboring village had been seen on this particular night wearing a garment for abandonment. With in a very few hours the suspect was arrested and the chickens found in his garden.

A cobweb proved one man's undoing.

In a district in Buckinghamshire a considerable sum of money had been stolen from one of the bedrooms of a house and the matter pointed to an entrance by the window.

The police found however, that although the window had been left open and the curtains brushed aside, there was an old standing cobweb across the opening, and no marks of any kind outside or inside. This caused suspicion to fall on an occupant of the house, and eventually the missing money was found in a box.

A discarded plug of tobacco secured the conviction of two burglars. On the burgled premises the police discovered a plug of tobacco which had been chewed and left there. When the prisoners were taken to court the judge ordered the plug of tobacco to be compared with the plug that one of the prisoners was then chewing and the identical resemblance, and the man's past misdeeds were sufficient to convict.

OBSEQUES

William Hurley.

The funeral services of the late William Hurley was held at the Church of the Immaculate Conception at 8 o'clock this morning. The high mass of requiem was offered by Rev. Edward J. Walsh, P.M. Interment was in Calvary cemetery under the direction of Undertaker W. P. Mistell. The pallbearers were Eugene J. Sullivan, John Flanagan, John Meegan, Francis Hurley.

Compare The Herald with any local newspaper for local news.

CURRENT OPINION

THE MOTHER IN THE HOME

Napoleon declared France's greatest need to be mothers. Can anyone evade the fact that it also America's greatest necessity? There can be no denying that we are drifting from the old-fashioned home; if only from its faults and blunders little difference, but how large we are renouncing its rock-ribbed virtues. Fathers are too busy and mothers are delegating their God-given tasks to the public schools and the Sunday schools.

God made a home before he made a nation. When the home is full of weakness the government is in danger. When the home is filled with impurity the social life is rotten. No church, no Sunday school, no reform agency can take the place of the home.

It is easy to criticize the modern home; yet one must go blind not to see that in one fundamental the real home is fast breaking up. I refer to the decay of parental authority. What enters the young man for civic law, who never as a boy has learned the meaning of parental law?

Witness the scene in Boston this past week. Five hundred boys of 12 to 14 years bidding defiance to school board, parents and police, and presuming to dictate the hours they should attend school. The fathers and mothers stood helpless before their children until police help arrived.

The real purpose of every home is not to feed stomachs, or to provide beds. A real mother's business is to give her boy a character. She may give him victuals and a bed but if she fails to give him a character she is no mother. In such a home the mother is supreme. A good man with a bad wife can never make a home. A good wife with a bad husband may. The mother is the home.—Rev. Arthur C. Archibald, of Brooklyn.

F. C. REMICK & CO.
11 CONGRESS STREET

EXTRA SESSION MAY DEAL WITH TARIFF PROBLEM

(Continued from Page 1.)

Then will come the caucus by the Democratic senators.

Today Senator William's sub committee, the hardest working of all of them, labored until a late hour putting the finishing touches to the administrative provisions of the bill and the income tax. They will report tomorrow. The Underwood bill administrative reforms, it is known have been greatly altered by the sub committee.

In readjusting the administrative changes the sub committee has had the aid of Secretary McAdoo, Asst. Secretary Curtis and Asst. Atty. General Denison. Many suggestions from these department heads have been accepted by the sub committee in whipping into shape tariff regulations which will be acceptable to the foreign powers, without weakening the hand of the United States.

The fight over free wool and free sugar so far as the Democrats are concerned, is believed to be over by the administration leaders. Senators Randall and Thornton of Louisiana and Walsh of Montana are the only Democratic senators in a now believed who will refrain from taking the caucus pledge. Even Senator Walsh might support the bill, some of his friends declare after it is apparent that he has done everything in his power to have a small duty on raw wool.

There is but little enthusiasm in either house over the administration move for currency legislation at this session. In the senate there is even grave doubt of the banking and currency committee's agreement upon a currency bill at this extra session, despite the insistence of Chairman Owen that currency legislation is imperative. In the house Chairman Glass son far is the only member who has evinced any determination to press currency reform before the regular December session. Mr. Glass expects to start the currency machinery in motion by introducing a bill next Tuesday that he believes will represent the composite views of President Wilson, Secretary McAdoo, Chairman Owen of the Senate committee and himself.

PORTSMOUTH THEATRE PROGRAMME

For Monday and Tuesday "THE TRAGEDY OF BIG EAGLE MINE"—Kalem. In two reels

An Indian drama. Morton has won the friendship of Big Eagle, and he shows him a vein of gold which he has discovered. Not long after laughing Walter Big Eagle's daughter and Morton are married, how they get along will interest anybody that witnesses it. Featuring Mr. Carlyle Blackwell.

ACT—Billy Kennedy—Comedian.

Pathe's Weekly, No. 23

A perfect film for particular people, portraying the moments of current events with a fidelity, unobtainable by any other method of publicity.

ACT—Soughlin's Dogs—Comedy Dog Act.

Silence for Silence—Lublin.

A young farmer performs some necessary labor on Sunday. A clever farce on Sunday morality.

Broncho Billy's Grit—Swanny.

A great Western drama played by real Western people. Featuring the world's most popular play: "Axe, Mr. G. M. Anderson.

SPECIAL—Wednesday and Thursday: "A REGIMENT OF TWO"—Vitagraph. In two parts.

J. C. Fred Duncan is out after a week's confinement from an attack of bronchitis.

PEOPLE'S OPINIONS.

Not Crazy to Appear.

I hear that certain members of the Veteran Firemen's Association would like to see a bill passed whereby the regular firemen would be obliged to parade on muster day. I would like to say that I for one am not crazy to show my uniform. If the Vets want to show their red shirts they might do so by using their tub for the sprinkling of our streets. Furthermore, I am not in favor of the city appropriating money for a muster. The regulars are well able to look after their own af-

fairs without any help whatever from the Veteran Firemen.

A REGULAR.

ENJOYED SHORE DINNER

Eugene J. Daniels of Greenland entertained a party of friends at Clark's Island on Sunday. A shore dinner was furnished by L. W. Thomson for the party.

WILL BE SENTENCED TODAY

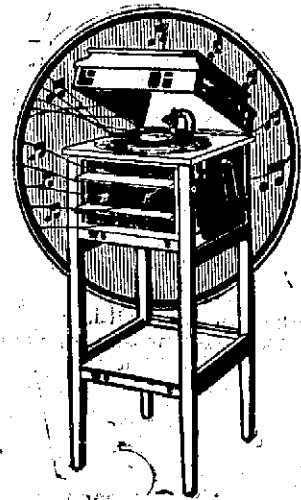

James Berry charged with manslaughter was taken to Exeter this morning when he will be sentenced in the superior court by Judge Young.

KITTERY POINT

What Is Happening In the Harbor Town.

Lieut David Marvin of the U. S. Cutter Andruscoggin, son of Winthrop L. Marvin of New Castle, N. H., and Newton, Mass., is reported ill with measles at a hospital in Portland.

Following is a list of officers of the First Christian Sunday school for the following year:

Superintendent—Willard Emery. Assistant Superintendent—Leonidas H. Sawyer.

Secretary—Mrs. Laura Glawson. Nathaniel Nutter has resumed his duties at the navy yard after a vacation.

Alla Adams, daughter of Mrs. Eva Adams, was operated upon at the Portsmouth Hospital on Friday.

D. H. Hamilton of Norway, Me., has been the recent guest of Mr. and Mrs. L. H. Sawyer.

Mrs. Alberta Cobb of Kittery spent Friday with her daughter Mrs. C. S. Segee.

Herbert Tobey has taken employment with Hodgdon & Kershaw in Portsmouth.

George A. Kimball of Boston passed the week end with his family in this town.

Mrs. Nathaniel Amazeen of Lynn, Mass., has returned to her home after visiting relatives in town.

The state spraying machine is doing good work along the town's highways at present.

Now both the hottest summer boarder begin to appear in our midst.

Miss Elizabeth Brenley of Kittery passed Sunday, as the guest of Mrs. Annie Blake.

Miss Alice Churchill is spending a week in the Churchill cottage at Ocean Park, Me.

Mrs. John Patch and daughter of York was the guest of relatives in town on Saturday.

Miss Dorothy Adams has returned to her home in Dover, N. H., after visiting her grandparents, Mr. and Mrs. J. G. Irish.

Arrived—Steam yacht Husa II, 14 B. Hawkins of Duluth, Minn., owner cruising East.

Captain William Amee of North Kittery visited relatives in town on Sunday.

Mrs. Justa Drake and daughter, Miss Dorothy, have returned to North Hampton after visiting relatives here.

Cecil L. Seawards of Dover, N. H., visited his sister, Captain and Mrs. Horace Seawards on Sunday.

Frank Call passed Sunday with his family in North Berwick.

Mr. and Mrs. Fred McMullin of Portsmouth passed Sunday with relatives in town.

Captain Frank Lawry has placed his fishing sloop old Hunter on moorings in Pepperell's Cove.

Miss Lavina Wilson of Boston, is visiting her grandparents Mr. and Mrs. Asa Wilson.

Thomas Seawards of Rochester, N. H., passed Sunday with his family in town.

Ralph Bunker of Kittery was a visitor in town on Sunday.

Charles Cobb has purchased a motor boat.

Over twenty members of the Boston & Maine Foremen's Association, spending the week at the Parkfield Hotel, enjoyed a trip outside Sunday in Capt. Harry Handoff's large motor boat.

Thirty-three members of the Railroad Foremen Mechanics Association held their meeting and outing at the Hotel Parkfield on Saturday and Sunday.

M. P. Cole of Ayer, Mass., was elected president for the ensuing year.

H. Hunter of Boston, vice president, and S. P. Doran of Everett, Mass., secretary and treasurer.

RYE NEWS

Children's Sunday was observed at the Christian church on Sunday and the sacred house was filled at both services. The feature of the morning service was the sermon to the children which was delivered by the pastor, Rev. J. B. Fenwick. The order of service was as follows:

Voluntary in D.Leybach Lord's Prayer in concert.

SAVE AS YOU EARN

STEADILY—IT PAYS!

No man or woman can tell the moment their Earning Days will STOP, but everyone who starts an account with this bank, saves and deposits steadily KNOWS they are acting wisely.

Isn't it time for you to begin?

3½ Per Cent. Interest and Safety is the inducement this bank offers.

PISCATAQUA SAVINGS BANK,

C. A. HAZLETT, President

C. W. BREWSTER, Treasurer

Psalm (response). Anthem—Choir. Scripture Lesson—Genesis, ch. 1 and 2. Prayer and response. Offering—"Spring Song"Mendelssohn

Notices. Hymn. Sermon—Genesis 2:7. Text: "And the Lord God formed man of the dust of the ground," which the pastor illustrated by different uses and kinds of iron.

Hymn. Benediction. Choir—Mrs. Flora B. Seavey, Mrs. J. R. Fenwick, Mrs. Wilbur L. Marden, Mrs. Joseph O. Seavey, Mrs. Geyerott H. Seavey, Miss Lena F. Foss, Mrs. Thelma Woodman. Organist, Miss S. Minnie Foss.

The song service entitled "Nature's Rejoicing" and recitations and exercises appropriate for the glad festival day were given by the children of the Sunday school. The ensuing was the program:

VoluntaryLeybach Miss Foss, Organist. Opening Chorus—"The Army of the Sunday School."

Sermon Reading by Rev. J. B. Fenwick, by Rev. Louisa. Song—"Sunlight and Song"Girls' Choir.

Distribution of plants. Benediction by pastor. Postlude—"Alegro"Batemun

The girls' choir included the following: Miss Annesa Foss, Stella Mellette, Myrtle Caswell, Doris Brown, Mildred Tucker, Edna Garland and Frances Grace.

The church was decorated with blossoms and greenery and the stage was banked with the potted plants which were afterward distributed to the children, and radiant in bloom and verdure.

The events of the week are as follows: Tuesday evening the Christian Endeavor prayer meeting will be held in the vestry of the Congregational church.

The annual strawberry supper under the auspices of the Ladies' Aid of the Congregational church will be held in the vestry of that church on Thursday evening at 7:30 o'clock. An entertainment will be presented.

On Friday the local schools closed for the long summer vacation. Several pupils will enter Portsmouth High school in September.

Miss A. Mae Glidden, who has acted as teacher of the South school, has returned to her home in Laconia, this state.

On Friday evening, the local Grange observed Children's night. Miss Annie M. Goss and Miss A. Mae Glidden, teachers of the West and South schools respectively, trained their pupils to present the program which included recitations, singing, exercises, etc. Miss Goss' pupils presented the farce "The Old Piper of Hamelin," by Robert Browning, which was very well received by the appreciative audience.

At the conclusion of the entertainment refreshments were served, which consisted of rolls, strawberries and cream, cakes, vanilla and chocolate ice cream. The supper committee included Mrs. A. H. Drake, Mr. Chester D. Drake, Mrs. J. O. Seavey, Mr. O. F. Verrill and Mr. Chester D. Drake was in charge of the dining room. After the supper dancing was enjoyed by all the young folk.

Miss Mary D. Pinlayson has completed her studies at Radcliffe and has

returned to her home on Cable road to spend the summer vacation. Miss Marion Emory of Waltham, Mass., was the week-end guest of Mr. and Mrs. Wallace E. Goss of Rye harbor.

Master Henry Concannon is confined to his home at Rye Harbor by a severe attack of bronchitis.

Master Roy Proctor is severely ill with typhoid-pneumonia, much to the sorrow of his school mates and friends who wish him a speedy recovery.

The Ocean Wave house will open on June 27. The Farragut house will open on June 21.

Mr. Raymond Watson and Mr. Will Carleton Niles of Boston, students at Harvard dental school, are at Rye North Beach for the summer.

KITTERY

Breezy Items From the Village Across the River.

Kittery correspondent's telephone, 778-M; P. O. address, Box 303.

At the regular session of the Second Christian Sunday school yesterday the annual graduation from the kindergarten department to the main Sunday School, the following little misses received diplomas: Dorothy Williams, Doris Graham, Margaret Clough, Gladys Goodwin, Roberta Landers, Marlin Dinmore, Celia Fernald.

Misses Bessie M. Whidden and Eva Button of Exeter and Grace Buckley of Bradford, Mass., were week-end guests of Mr. and Mrs. Leslie F. Blackford and family of Pleasant street.

Mr. Joseph Bouter of Somerville, Mass., accompanied by Dr. Newton DeWitt of Cambridge, Mass., James Simpson of Syracuse, N. Y., James Duncan and Henry Scribner of Somerville, Mass., have been guests of Mr. Bouter's relatives here, returning to their respective homes Sunday afternoon. While here they enjoyed fishing.

Carleton Latta, just graduated from the University of Maine at Orono, is at his home here.

Mrs. Henry H. Shaw and daughters, Misses Arvilla and Emily Shaw, were guests of friends at Kittery Point Sunday afternoon and evening.

Riverside Lodge, No. 72, I. O. O. F., holds its regular meeting this evening. The second degree will be conferred.

This week will be a busy one for the schools, the examinations taking place the first half, while graduations and closing exercises will be in order the last two days.

Crowds from this town attended the Play day exercises in Portsmouth on Saturday.

Walter Donnell of Lynn, Mass., passed the week-end with his parents, Mr. and Mrs. F. E. Donnell of Central street.

Mr. Robert Stanley and family of Dame street passed Sunday at York Beach.

Screen doors, window screens screen cloth, poultry wire, lawn mowers, garden hose, haying tools, assortment of lead, Columbia batteries—G. L. Trefethen, Kittery, Me. 1113 St.

Howard Amee of Kittery Depot spent Sunday with friends at York.

Miss Marion Clough of Somerville is visiting Mr. and Mrs. Charles Heene of Central street.

The Ladies' Aid Society will meet Thursday evening in the vestry of the Second M. E. church.

The Ladies' Sewing Circle of the Second Christian church will meet Thursday afternoon with Mrs. William M. C. Philbrick of Stinson street.

The Phoebe's Sewing Bee will meet Wednesday afternoon with Mrs. Elroy Cottle.

A very nice children's concert was given last evening by the children of the Second Christian Sunday school. Special mention should be made of the children's quartet, which beautifully rendered two selections. The quartet is composed of the Misses Eleanor Packard and Marion Morrow, and Masters Earle Courmoyer and Winfred Sprague. The pastor spoke to the children on the subject: "Growing three ways at once," likening the growth of character to a tree, that is, growing upward, downward and outward. A large audience was present.

The annual dinner of the alumni of Traip Academy will be held Saturday evening of this week at the Hotel Rockingham, Portsmouth, at 6:30 o'clock. A large number anticipate attending.

The annual baccalaureate sermon before the graduating class of Traip Academy was given Sunday at Academy hall by Rev. Roger W. Churchill of the Free Baptist church at Kittery Point.

This is graduation week at Traip Academy. On Thursday afternoon at 2:30, the senior class day exercises are held at Academy hall. In the evening at 8 o'clock, at the same place, is the junior debate. Friday evening at 8 o'clock, occur the graduating exercises. Hon. Payson Smith, state superintendent of schools, is to be the speaker at the latter. The public is cordially invited to attend all these exercises. Ticket holders only will be admitted to the class-day and graduation exercises up to the hour announced for the opening, when the doors will be opened to the general public.

Entrance examinations for Traip Academy will be held on Monday and Tuesday, June 23 and 24, beginning at 9 o'clock a. m.

All back orders for both Hiale's stables, call telephone 3. HC 12.

THE ODD FELLOWS HONOR THEIR DEAD

Hold Special Service at Court Street Church--Decorate Graves of Departed Members.

The annual Memorial Service of the Independent Order of Odd Fellows was observed Sunday at the Court street Christian church, where the pastor, the Rev. Percy W. Caswell, held special services at 2 p. m. for this occasion, and he delivered a very appropriate address which was much appreciated by the large gathering of Odd Fellows and Rebekahs present. The church choir furnished music in a fine manner. These Memorial Services will be an annual event by proclamation of the Grand Master of the I. O. O. F. The lodge making the arrangements consisted of Phebequa No. 6, New Hampshire No. 17, Osgood Lodge, No. 48, Strawberry Bank Encampment, and assisted by the Sisters of Union Rebekah Lodge No. 3. This lodge also furnished the flowers to decorate the graves of all the deceased members. This act of fraternalism was much appreciated by the members of the Subordinate Lodges.

After the close of the church services a line was formed, led by the veteran drum corps and escorted by Canton Senior I. O. O. F., in full uniform, marched to the cemetery where the ritual services were held consisting of the reading of the Proclamation for Memorial Sunday issued by the Grand Sir and also by the Grand Master of New Hampshire. This was read by Paul Grand Oros, H. Kelso, Secretary of Osgood Lodge, No. 48, followed by a prayer delivered by the veteran Odd Fellow Postah Adams of Phebequa Lodge No. 6. All the members assisted in decorating the graves. During the past year No. 6 lost by death 4 members, No. 17 five members, No. 48, nine members. Union Rebekah lodge five members, Encampment six members.

The regulation Memorial flag of the I. O. O. F. to decorate the graves was used by Osgood Lodge, No. 48. John C. Shaw, Noble Grand, was chief marshal of the day.

COL. GOETHALS CONFERS WITH PRESIDENT WILSON.

Washington, June 15.—Colonel George W. Goethals, chief engineer of the Panama Canal, conferred with President Wilson today about his prospective visit to the Canal Zone. The President told the colonel he would visit the isthmus as soon as Congress adjourned, but did not hazard any guess as to when that might be. Colonel

Goethals said he expected to let the water in about the first of October. "I can hold the water out for two weeks longer, however," said Colonel Goethals, "if the President should be delayed in getting down, as we want him to see the canal before the water is put in."

A law was passed in August, 1912, by Congress permitting the President at his discretion to put into effect a permanent organization for the Panama Canal. Colonel Goethals has urged that this law be put into effect at once, because it will be impossible to train an operating force until it is, as the present law provides only for the construction of the canal. At present there are about 40,000 men at work and among these are 5000 skilled Americans. Colonel Goethals wishes to select his operating organization from among these men and desire to give them several months' training on the various lock machines before he throws the Canal open to navigation.

But putting into effect this new law means the abolition of the Isthmian Canal Commission, and appointment of a "governor of the Panama Canal," at a salary of \$10,000 a year. Colonel Goethals' present salary is \$15,000 a year, and immediately the new law goes into effect it will be cut one-third. All the other members of the Commission will lose their jobs, although two of them, Colonel Hodge in charge of lock design, and Chief Engineer H. H. Hunsome, D. S. N., in charge of ship equipment and dry docks, will be retained until the work they have started is finished.

Among the other commissioners are Colonel W. C. Gorgas and Lieutenant Colonel D. H. Gifford and William L. Sibert. All three of these object to the abolition of the Commission on the ground that their work is not finished. Lieutenant Colonel Sibert is in charge of the locks and dam at Gatun, Lieutenant Colonel Gifford of the excavation in Culebra cut and Colonel Gorgas of public health.

There is opposition to Colonel Goethals among the other members of the Commission, according to the New York Sun. The enmity to Colonel Goethals is based upon the feeling that he is too much of an autocrat, and that as chairman and chief engineer he has ruthlessly overruled his colleagues on the commission. The other members of the commission feel that it would be unfair to them if the commission were abolished before the canal is actually completed. They would be deprived of any participation in the credit and glory which they are certain will attend the actual completion of the canal and its opening to the world.

This Administration looks to Colonel Goethals as the responsible head of the Canal Commission and has no intention of acting in any way to prejudice his position in the Canal Zone. On the other hand, it can be said with equal positiveness that the President has determined that the Canal Commission shall remain in existence until the canal is actually completed and opened to the traffic of the world. These decisions have been arrived at by President Wilson and Secretary of War Garrison with full knowledge of the friction in the zone.

Reports to the effect that Colonel Goethals wants to leave the isthmus are pronounced groundless by those who are in his confidence. It is believed that he would regard it as a compliment which he would be pleased to accept if President Wilson would make him governor of the Canal Zone for the first year after the opening in 1915. After that he hopes to be able to get leave of absence for travel around the world. After his hoped-for vacation he would prefer, above all the honors that have been suggested for him, permission to retire from active service in the army so that he might establish himself in the United States as a consulting engineer.

The lock at Gatun will be completed, so far as construction work is concerned, in July; the dam is complete now. Machinery installations at Gatun locks will not be finished until January, 1914, but this is not carried on by Lieutenant Colonel Sibert's forces. Excavation in Culebra cut is within 10,000,000 cubic yards of completion. Colonel Goethals wants to turn the water into Culebra cut in October and finish the work by dredging; but Lieutenant Colonel Gifford is, according to the Sun, opposed to this, believing that all this work should be done in the dry. Why this plan is the better is one of the questions Goethals will answer.

Another question involves the future of Panama Railroad. This road was run as a commercial enterprise from 1834 to 1904. In 1888 the Panama Canal Company acquired the controlling interest and this stock passed to the United States in 1904, when the canal purchase was consummated. Stock held privately was also purchased, and the Government now owns all of the 70,000 shares. As an auxiliary to canal construction the ownership by the Government and operation by Government employees have not been questioned seriously. But leaders in Congress have frequently expressed themselves as opposed to Government ownership and operation after the canal is completed. This question of the future of the railroad must be determined this year. Already the local notices in Panama bear "U. S." in big gilt letters.

Colonel Goethals is the representative on the Isthmian of the Panama Pacific Railway Board, and the building of the Pacific is being done by his son. This phase of the work will soon be at a standstill unless the guns for the facts are shipped to the isthmus before the water is put in.

SECRETARY DANIELS FAVORS NAVY YARDS BUILDING ALL SHIPS

"The administration will probably town navy yard, making careful in-adopt the policy of building all its ships in its own navy yards. It for the construction of the largest ship yard in New England, and one of the largest in the world."

Not 10 feet away when the Secretary announced this proposed change of policy in naval construction was former Rear Admiral Francis T. Howley, president of the Fore River Shipbuilding Company, the largest ship yard in New England, and one of the largest in the world.

Secretary Daniels said the upkeep of the navy yards was of vital importance and so far as he knew not a single one of them would be discontinued. At the present time practically only repair work is done at any of the yards, very little new construction being undertaken. To provide sufficient work for each navy yard is proving a very serious problem.

He advocated the construction of all our big ships in the government yards by government employees to the exclusion of private firms or corporations.

The secretary is now on a trip which will include every navy yard on the eastern coast, after which he probably will visit the navy yards on the Pacific.

Monday he will inspect the Charles

fact, if the guns were ready the forts cause the improvements are ready. It could be got in shape to defend the Canal by the time navigation through it is possible. This, Colonel Goethals says, will be early in 1914.

XXXXXXXXXXXXXXXXXXXX ELIOT XXXXXXXXXXXXXXXXXXXX

Mr. and Mrs. Albert Staples have moved to Kittery Junction.

Mr. and Mrs. Samuel Dixon visited their daughter, Mrs. G. S. Hamberg of Somersworth Thursday.

The Ladies' Circle connected with the M. E. church will picnic at Jenness Beach on Thursday next.

Mrs. Albert Hurst was a visitor in Dover Thursday.

The class of pupils of District Grammar school will hold graduation exercises on Thursday next. The primary grade will also have an inter-

esting program as a fitting finale to the spring term which closes this week.

The Bath band will meet Tuesday evening with Mrs. Frank Fernald.

The Foreman Guild will meet at the home of Mrs. Wood on Friday evening next.

Something New

The well-known table beverage, POSTUM now comes in

New Form

Called

Instant Postum

A delicious drink—absolutely free from the coffee drug, caffeine.

A level teaspoonful of Instant Postum in an ordinary cup of hot water dissolves instantly and makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the amount that pleases your palate and have it served that way in the future.

Postum comes in two forms.

Regular (must be boiled)

Instant Postum doesn't require boiling but is prepared instantly by stirring a level teaspoonful in a cup of hot water.

breaking in as motormen on the A. S. L. railroad.

Everett Cole, clerk in the Elliot Trading Company, is unable to perform his duties there on account of a lame hand.

Rev. George W. Brown is sick, Dr. J. L. M. Willis being in attendance.

Miss Abby Brown of York Beach was a recent visitor here.

Children's Day was observed at the Methodist Episcopal church last evening by a concert of which the program is appended:

Choir—"The Children's King."

Prayer.

BACCALAUREATE SERMON AT THE NORTH CHURCH

The graduation class of the high school attended services at the North church on Sunday evening and heard a very fine baccalaureate sermon by the pastor, Rev. J. H. Thayer, D. D. There was a very large congregation present the other church uniting their services in favor of the baccalaureate service. The senior class attended in a body and were seated together in the center aisle.

Dr. Thayer was most eloquent and his sermon was closely followed by the young people.

A special musical program added to the effectiveness of the service.

A CASE FOR SOLOMON.

Actress Has Two Contending Maternal Relatives.

Mlle. Mistinguett, a popular Paris actress, was not a little surprised to learn in the midst of her brilliant career that she might have two mothers, a real one, and another who by all means wanted to be one. The story was so confused that she had to appeal to the courts to settle it. One evening Madame Bergerolles, residing at Moulins, went to a cinema show. The orchestra banged away furiously, the lights were lowered, and the picture of a pretty young woman was projected on the screen.

An actor named Madame Bergerolles saw it and exclaimed, "Heavens, that is my daughter Albertine!" She left her seat quickly and asked to see the manager. "Monsieur," she said excitedly, "I have at last found my daughter."

Cottolene

makes delicious pastry

It's the last word in pastry-making. It makes cakes so light and airy that every morsel tastes like "more."

Digestible too, because Cottolene food is never greasy.

Cottolene is better than lard, because it's a vegetable—not an animal-product. It is richer—use one-third less.

Cottolene is cheaper than butter—costs no more than lard, and will give better results than either. Use one-third less than butter also.

Cottolene is never sold in bulk—always in air-tight tin pails, which protect it from dirt, dust and odors. It is always uniform and dependable.

ter Albertine, who ran away 15 years ago. I thought she was dead. But she is not. I recognized her picture on the screen."

The manager told her that all she had to do was to go to Paris. If that was her daughter she would soon find her, as she had become a famous actress, and was none other than Mlle. Mistinguett.

"Good heavens! Is it possible?" exclaimed Madame Bergerolles. She left for Paris at once, and had no difficulty in finding Mlle. Mistinguett, whose name figured in big letters on the posters of one of the theatres.

"Albertine!" she exclaimed in the presence of the actress. "I have found you at last! You recognize me, don't you? I am your mother."

"A thousand pardons," said Mlle. Mistinguett. "I thank you very much, madame, but I already have a mother. In fact, my mother is living with me."

"How ungrateful children are!" the poor woman said, as she went away sobbing. Nothing would make her believe that her actress was not her daughter. She wrote to the manager an imploring letter and talked of her destitution compared to her daughter's wealth.

"See here," said the manager one evening to the actress, "you ought to help your mother."

"But Madame Bergerolles is not my mother," said the actress. "It is a bad thing to disown poor relations," remarked the manager severely, still under a false impression. "She is not my mother," the actress retorted; "but if she is poor I will help her." She did, in fact, send a present of money soon afterward, being tender-hearted, like most of her profession.

But Madame Bergerolles did not want money. She wanted her daughter Albertine and a regular monthly allowance. The courts had to be appealed to, and the judges of Moulins went to Paris to inquire. "This is worse than a farce," said Mlle. Mistinguett, "but it is no joke to me. My name was never Bergerolles. My real name is Jeanne Bergerolles, and I was not born at Moulins but at Montmorency, where the best cherry trees grow."

Boston Transcript.

One of the cleverest swindlers ever engineered has recently been worked in London with the aid of a pack of ordinary playing cards, the telephone and a most retentive memory—plus, of course, a distant confederate.

This is the game: In a public restaurant or bar where there is a telephone call box, the swindler gets into conversation with the intended victim and artfully turning the talk in the direction of thought reading, mental telepathy and second sight, asserts that he has a sympathetic friend at the other end of London who can instantly tell the name of any card which may be selected from the pack, the chooser of that card to ring him up and ask him, in his own words and without any prompting, what the particular card is.

The victim repudiates the possibility of such a marvelous feat and a bet, the heavier the better, is made. The card is chosen and is seen by the swindler. He does not leave his seat. All he does is to say to the victim: "Ring up (say) 699 009 Gerrard, and ask my friend, Mr. So-and-So, what card you have chosen."

The other does so and, assuming, for the sake of argument, that he selected card was the nine of diamonds, that is the reply which he gets.

The modus operandi is simplicity itself. The swindler has memorized the names of 13 cards of one suit against 13 ordinary English surnames. Say clubs have been chosen. Then the answer will be Mr. Brown; the two, Mr. Smith; the three, Mr. Jones; and so on. If the card which is selected is a diamond, he puts a Christian name in front of the surname and says: "Ask for Mr. Thomas Brown." If it is a heart, he makes it "Miss Brown," and if it is a Spade he makes it Miss Rose Brown or any other Christian name. The confederate at the other end of the wire has only to look at the prepared list, which lays tabulated before him and, according to what name is asked for by the victim—whether just plain "Mr." or "Mrs." With a Christian name—or the same method as regards the lady, he gives in answer in the query the values and suit of the card which corresponds to it.

The swindler, of course, wins the bet, and shares with the confederate later on.—Philadelphia Ledger.

GROWING THE VARNISH TREE.

Native Plant of China Imported for American Planting.

After several years of experimenting in the South the department of agriculture at Washington is ready to advise farmers in the warmer parts of the United States to grow varnish trees and will help start the new crop, which, with care, should bring good profits, even on ordinary land.

Last year the United States imported 5,000,000 gallons of tung oil, expressed from the seeds of the Chinese tung or wood-oil tree, an oil which in recent years has had a revolutionary effect on the varnish industry. It makes a high-grade, quick-drying varnish with only slight tendency to crack.

The tree which produces this varnish is a native of the Yangtze river region. In some respects it resembles the catalpa; in the spring it is covered with large flower clusters before the leaves appear.

The tree begins to bear fruit when four or five years old. The fruit is the size of small apples, each containing four or five large oil seeds. The yield of these seeds in China is 30 to 75 pounds to the tree. The oil from the seeds constitutes nearly 25 per cent. of their substance. The apple-like fruit would be worth 25 to 30 cents a bushel, and when the trees are planted 20 feet apart the gross yield from an acre would be, at these prices, \$50 to \$55 an acre. One eight-year-old tree near Tallahassee, Fla., bore last year two bushels of fruit.

The cultivation and marketing of the fruit and the manufacture of the oil from the tung tree is said to be a simple process. The distribution of several thousand trees in the South in 1904 and 1907 has brought out considerable information as to the behavior of the trees in the United States. It has proved a rapid grower and withstanding a temperature approaching zero. It drops its leaves in the winter and does not start again until early spring. Therefore its crop is not likely to be injured by late frosts.

Tung trees have grown and fruited well in South Carolina, Georgia, Alabama, Mississippi, Louisiana, Texas, Florida, and California, and the government specialists see no reason why the experiments should not result in a profitable industry, particularly where land is of little value for other crops.

The present consumption of tung oil in the United States would require about 40,000 acres of orchards, and the department of agriculture points out that the consumption is likely to grow. The department has on hand for distribution to experimenters a limited number of one-year-old trees. What is now wanted to develop the industry, officials say, is the creation of acre plantations in the hands of private individuals.—New York Times.

CLEVER CARD CONSPIRACY.

MRS. PEARSON RELEASED FROM JAIL

Mrs. Mollie Pearson, wife of John N. Pearson, who was surrendered by her bondsmen May 22 and who has since been confined in the Reckingham County Jail in this city, was released Saturday afternoon on her own recognizance.

Mrs. Pearson last fall eloped with Fred L. Trask a clerk at the navy yard, taking with her a young daughter. Several weeks later Mr. Pearson brought his daughter and wife back from Montreal.

Shortly after Mrs. Pearson's return Mrs. Trask instituted a suit of \$10,000 for the alleged alienation of her husband's affections, and Mrs. Pearson was arrested, but was later released on \$5000 bail, furnished by Freeman R. Pearson and John W. Gerish. On May 22 her bondsmen surrendered her however.

Following her release Mrs. Pearson left for her parents' home in Stratham. The trial is set for October.

BRAVE MEN AND USEFUL.

Couriers of the Pony Express Did Hazardous and Valuable Work.

Perhaps few persons noticed a brief dispatch from St. Joseph, Mo., announcing the unveiling in one of the parks of that city of a monument commemorative of the pony express riders of early days. The event was interesting and the monument was deserved, for the pony express was an important factor in the development of western civilization and one of the first steps toward connecting the midland west with the Pacific coast.

The schoology of 1850 was taught by his geography that a large area of country west of the Missouri river was the "Great American desert," and it was so marked in the school atlases of that day. The first emigration to California after the discovery of gold there, made "across the plains" and great difficulties and dangers, did something toward dispelling the mystery that enveloped great interior of the continent, but it remained for the pony express to open and establish the first line of comparatively rapid communication across the plains and mountains.

The stage coach was slow compared with the pony express. In 1854 the government paid \$80,000 a year for a monthly mail stage from Independence, Mo., to Stockton, Cal. The stage line from St. Louis to San Francisco, called the Southern Overland Mail, was by a route 2,750 miles in length, and the time at first twenty-five days, never got below twenty-one days. The pony express, planned and organized by western men who knew how to do things, was started in the spring of 1860. The New York Herald of March 26, 1860, contained an advertisement headlined:

"To San Francisco in eight days by the Central Overland California and Pike's Peak Express." The advertisement stated that "the first courier of the pony express would leave the Missouri river on April 3 at 5 o'clock p.m., carrying a letter mail only." Letters were to be delivered in San Francisco "in ten days but by using the telegraph at intermediate points the time for news transmission could be reduced to eight days. The Civil War began in nine months after the pony express was started, and the news of the firing on Fort Sumter reached San Francisco in eight days and fourteen hours. From that time on a bonus was given by California business men and public officials to riders who brought war news ahead of schedule time. In 1862, for bringing the news of the battle of Antietam to Sacramento one day earlier than usual a purse of \$500 was raised for distribution among the riders.

Of course, the pony express was simply a forerunner of the mails and news—no

passengers, freight, or parcels. The ponies were half-breed bronchos, selected for strength and speed, and the riders were trained and fearless. The ponies were run at full speed, with relays at regular intervals. As some stream had to be swum, the letter packages were wrapped in oiled silk. The riders were armed, every one of them was a marksman, and, whether they ran into a herd of buffaloes or an Indian ambush, they knew how to take care of themselves. One of the riders from the beginning of the service was a lad, then in his teens, called Bill Cody, since known to fame as Buffalo Bill, member of the Nebraska legislature, etc. He was one of the first riders to start from St. Joseph in April, 1860, and he was present at the unveiling of the monument a few days ago.—Indianapolis News.

The Elks may well feel proud of their first Blue Day celebration.

Upholstering, hair, mattresses renovated, Matteson Bros., Phone 370.

John H. Dowd's Marble and Granite Monumental Works, 62 Market street.

The Port Constitution baseball team played at Newburyport next Saturday afternoon.

Local fishermen at Hingley Lakes returned today with stories of good sized catches.

The present week is an eventful one for not only the pupils of the high school, but also the lower grades.

Hungry was met with the police, but no arrest was made in 48 hours and that a simple drink.

Lobsters and Fish of all kinds caught by our own boats, fresh every day, E. Jamison & Sons, Tel. 663.

The Board of Public Works have more work under way than ever before at this time of the year.

Safety razor blades sharpened, lawn mowers ground, saws filed, upholstery mended, keys made, locks repaired, razors honed and rebounded, axles, valves and tools ground at Horn's 23 Daniel street.

One hundred and twenty five plates will be served for the dinner to be given by the Board of Trade and Merchants Exchange to Secretary of the Navy Daniels.

Brightens all furniture polishes and polishes in one operation, Margeson Bros., Tel. 670, chf. 133.

The funeral of Jennie Wade, the victim of Friday night's shooting affair, takes place Tuesday morning.

Any time you want to take a drive just telephone 3, and Hupol will do the rest.

Lobsters, Blue at Shook's Hardware and God brought in every morning fresh by our own fishing fleet. H. A. Clark & Co., 1 and 2 Commercial wharf, Tel. 615.

Many persons from this city visited Hampton Beach on Sunday, two cars being run on the afternoon trips of the Portsmouth street road in accommodation to the crowd.

Now is the time to have your house cleaned by the vacuum process. Drop a card to P. A. Hobbins, Rte. 1, Tel. 399-33.

"Muffy" automobilist motored to Hampton Beach on Sunday in haste to the band concert.

Auto burglar—One cylinder 4-pumper, Cadillac, 2 bottles, tires good. Tel. 107 IX, George Pinder, he 511 1w

FOR STEAMER RUOS

Cases for steamer rugs and umbrellas made in gray, green and black cloth with black leather straps and handles. One in blue and green plaid with tan straps can be purchased.

SHIFT IN FIRE DEPARTMENT

The board of engineers have ordered a transfer of Edward A. Arckley from Ladder 1 to Steamer 3 and W. P. Gray from Engine 3 to the Ladder Company.

WILL BE SENT TO BALTIMORE.

The body of Hubert S. White, who on Friday evening killed Jennie Wade, and then committed suicide, will be forwarded to Baltimore on Tuesday for burial.

VERDICT FOR PLAINTIFF

In the superior court this Monday morning a verdict of \$475 was rendered in the action of Joseph Mott against William Nicks to recover payment for ice.

PERSONAL ITEMS

W. S. Downs is passing the day to Boston.

Chas. Michael Crowley of Boston was a visitor here on Sunday.

Robert M. Morton of Boston passed Sunday at the Isles of Shoals.

Charles W. Greene was at Old Orchard Beach Saturday and Sunday.

Miss Helen V. Keefe of Boston is here to attend the wedding of her sister.

Mr. and Mrs. Charles York and young child are the guests of friends in Manchester.

Principal J. Wilson Hobbs of the Portsmouth High school passed the week-end in Boston.

Miss May Farrington, who has been the guest of Mrs. John Hamilton in Manchester, has returned home.

Mrs. Clarence B. Cowen and Mrs. Frank H. Moore of Deer street passed Sunday with friends in Boston.

Conductor W. F. Boynton and wife have returned from a trip to the west with the New England Conductors.

Paul V. Holt is suffering from a painful injury to his right foot caused by a barrel of sugar falling on it.

William P. Harrington of Manchester, general manager of the Portsmouth Brewing Co., was here on Saturday.

Mrs. William Gerrish of Frides Crossing, who has been visiting in Rittely, returned home on Sunday evening.

Mrs. Wallace Wales and Miss Grace McLoughlin of Newton passed Sunday with Mrs. Margaret Keefe and family of Cabot street.

Mrs. E. H. Stoddard of Manchester is visiting here to attend the graduation of her daughter from the Portsmouth Training school.

Mr. and Mrs. William H. Hudson of Boston passed Sunday with the former's parents, Mr. and Mrs. William Hudson of High street.

Charles Band who was the victim of a serious accident a few days ago has remained unconscious and will be able to leave the hospital soon.

Master Gordon Morrow, who has been the guest of his grandparents, Mr. and Mrs. John Grant, has returned to his home in Manchester.

The marriage of Miss Elizabeth A. Keefe and Mr. Timothy Donovan occurs at the church of the Immaculate Conception, Wednesday morning at 8 o'clock.

Mr. and Mrs. Frank Leslie, Mr. Thomas O'Neil and Miss Catherine Cassidy of Dover, enjoyed an auto ride here yesterday and called on friends.

Mrs. D. J. Vaughan of Middle street is passing the summer at York Beach. George W. Boardman is at Labanon called there by the serious illness of his mother.

Miss Margery Grant who has been attending the Plymouth Normal School arrived home Saturday to pass the summer vacation with her parents, Mr. and Mrs. Frank E. Grant.

Mrs. Margaret Kelley of Richards avenue leaves Tuesday for Peterboro to attend the annual convention of the Companies of the Perseus of America, which convenes June 17, 18, 19.

Alfred D. Larkin and daughter, Miss Alice, who have been making an extended tour of European countries, arrived home on Sunday. To a friend Mr. Larkin stated that he was glad to get back to old Portsmouth.

H. A. Patterson of Cambridge Mass., first Asst. Engineer of the U. S. S. Villan, since she was first placed in service in 1906, has recently been appointed chief engineer of the U. S. S. Sterling. Mr. Patterson has friends in Portsmouth who will be glad to know of his new position and success.

ATHLETIC ASSOCIATION AWARDS

Classes of 1914 and 1915 Choose Class Officers for Ensuing Year.

This morning the Portsmouth High School Athletic Association awarded the baseball "1" to the following members of this year's team: Captain Earl H. Bruce '14, Brandon Wright '15, Phillips H. Dugger '13, William H. Brown '16, Philip B. Bennett '13, Fred Gibson '15, John Thompson '15, Herbert Harrington '15, Charles Gray '16, Sherman D. Newton '15, Wilfred Hewitt '13, James Jones '13, Harlan Bryant '13, and Manager Fred Griffin '11. This year has been quite successful in every sense of the word and the team won six out of 11 games, finishing third in the New Hampshire South-eastern Interscholastic League.

The class of 1914, Portsmouth High school, elected the following officers this morning for the ensuing year: Wilfred Hewitt, president; Miss Dorothy Doolittle, vice president; Miss Martha Newton, secretary; Donald Venton, treasurer.

The class of 1915 elected the following officers for their junior year: John J. Hammett, president; Miss Eunice Kenney, vice president; Miss Lois Seybold, secretary; Jack Shillaber, treasurer.

ACCEPTS POSITION

With Eldredge Brewing Company as Master Mechanic.

Charles H. Paul, for several years master mechanic for the Frank Jones Brewing Co., has taken a similar position with the new firm controlling the Eldredge Brewing Company, and will shortly take up his duties with that company. This will cause his withdrawal as an applicant for the place of master mechanic in the machinery division at the navy yard for which an examination will shortly be held.

AUTO STRIKES COW.

Speed Fiends Then Rush Here for Repairs of Machine.

Russell Berry a resident of Greenland reported to the police on Sunday that some auto fiend driving an auto struck a valuable cow near his residence. The party in the machine made no stop after striking the animal but kept on to this city where repairs were made at one of the garages. The police have the number of the machine and the owner will later be called on to settle. The cow was killed by Dr. Ingle this morning to end its suffering.

NEW JURORS

Called for the Superior Court at Exeter Today.

The new panel of jurors reported to clerk Knight of the superior court at Exeter today. Those who served last week were discharged on Friday. The new panel will be the following: Leonard E. Marble of Atkinson; John B. Tuck of Brentwood; William N. Colby, of Chester; William J. Mace of Danville; Alfred D. Clark of Deerfield; Jonathan P. Clarendon, John W. Day and William H. Hatchelder of Derry; Charles L. Philbrick of East Kingston; Peter Ladd of Rittely; Isaac B. Williams, South Attleboro, Mass., \$60,817.65.

M. A. Small & Son, Saco, \$19,742.57. Poley and Kelley, Dorchester, Mass., \$66,211. P. A. Rumery Co., Portland, \$75,294. Charles A. Pratt, Topsham, Me., \$67,359.20.

The other member of the firm is H. A. Wood, superintendent of construction for the Steel Company of Ball-More, who are now putting the finishing touches on the naval hospital, one of the finest buildings erected in recent years by the government.

WANTED HORSES.

Firemen Refuse to Drag Hand Tub in Charlestown Parade.

The Franklin Pierce Veteran Firemen will be missing in the procession of red shirts at Charlestown on Tuesday. The crew of the Eureka have for the past two years been in line on June 17, but this year they declined the invite to participate. They are not declining through any lack of spirit but they do not believe in dragging a hand tub to the Somerville line and back. They informed the committee that if they would furnish their horses to haul the machine over the route of parade they would be in the lineup. The committee could do nothing, and the local veterans refused to take the place of horses. They believe that after pulling the Eureka for miles along the route, they would be too fatigued to go in the playoff and win a prize.

OBITUARY.

William Hurley.

William Hurley, aged 88, died at the home of Mrs. Ellen Shorten on Saturday night. He is survived by one son, John of Holyoke, and a daughter, Mrs. Mary E. Dennis of Bridgeport, also a sister.

chance W. Doeg, Albert S. Wetherell Jr., Charles H. Rowe and Arthur H. Sawyer, of Exeter; George W. Ball of Fremont; Stephen H. Weeks of Green land; Robert Butler of Hampton Falls; George Armstrong of Kennington; Rufus J. Emery of New Castle; George H. Tarlton of Newfields; Thomas Newick of Newington; Thomas as Chino and Phillip Labronch of Newmarket; Charles R. Quimby of Newton; John W. Tuttle of Northwood; Lewis H. Welch of Nottingham; E. P. Hoddard of Portsmouth, word 1; Edward D. Pendergast, ward 2; Reginald E. Goldsmith, ward 4; and William H. Hennessey, ward 5; Harrison M. Kelley of Sandown; William George of South Hampton; George W. Hall of Stratham, and William S. Hains of Windham.

The Herald Hears

That the Elks certainly can do things.

That there is a rumor that we are to lose the late train to Dover Sunday night as well as week days.

That Flag Day of 1914 will be a large event.

That the scrub team from this city put one over on the marines on Sunday.

That Portsmouth was alive with auto traffic on Sunday.

That many people are surprised when they hear what it costs for the use of the ambulance.

That the Vaughan Street Fishing Club are not telling any fish stories today.

That either the club did not sail as usual on Sunday or the fish refused to bite.

That it may be possible that they had the wrong kind of bait.

That these corporations who dig up the street paving should be made to replace it within ten years.

That the Portsmouth City Board will give the Fourth of July concert.

That the Walder Brothers shoe firm are still taking experienced help.

That those bowlers from the several bowling teams who have been sending them down the alleys are taking a rest.

That this is some weather for the Tango and Tunny Jug.

That the police who were on duty at the ice cream stand on the playground Saturday had their hands full.

That there was some rough house when Charlie Donders tried giving out those 3000 ice cream cones.

That the man who dishes out the cream on such an occasion as this, a couple of thousand kids should be protected with a divers pig.

LOCAL FIRM

Loses Big Sewer Contract by Small Margin.

Joseph Sacco and Company who made a bid for the sewer construction at Biddeford, Me., came out second, of nine firms who submitted figures. The local firm offered to do the work for \$17,822.70 and lost out the sum of \$208.50. The next lowest was the bid of Otto Nelson, a Bangor firm, of \$17,524.20. The other seven were the following:

Connors Bros., Lowell, Mass., \$66,726.

P. B. Williams, South Attleboro, Mass., \$60,817.65.

M. A. Small & Son Saco, \$19,742.57.

Poley and Kelley, Dorchester, Mass., \$66,211.

P. A. Rumery Co., Portland, \$75,294.

Charles A. Pratt, Topsham, Me., \$67,359.20.

The other member of the firm is H. A. Wood, superintendent of construction for the Steel Company of Ball-More, who are now putting the finishing touches on the naval hospital, one of the finest buildings erected in recent years by the government.

WANTED HORSES.

Firemen Refuse to Drag Hand Tub in Charlestown Parade.

The Franklin Pierce Veteran Firemen will be missing in the procession of red shirts at Charlestown on Tuesday. The crew of the Eureka have for the past two years been in line on June 17, but this year they declined the invite to participate. They are not declining through any lack of spirit but they do not believe in dragging a hand tub to the Somerville line and back. They informed the committee that if they would furnish their horses to haul the machine over the route of parade they would be in the lineup. The committee could do nothing, and the local veterans refused to take the place of horses. They believe that after pulling the Eureka for miles along the route, they would be too fatigued to go in the playoff and win a prize.

William Hurley, aged 88, died at the home of Mrs. Ellen Shorten on Saturday night. He is survived by one son, John of Holyoke, and a daughter, Mrs. Mary E. Dennis of Bridgeport, also a sister.

NAVY YARD NEWS

Inspect Southern Yards.

The naval board of inspections for shore stations will leave Norfolk, Va., on Wednesday on a tour of inspection of southern navy plants, having completed visits to all stations north of Norfolk. The board, which is composed of Rear Admiral John R. Edwards (president), Captain George R. Evans, Naval Constructor W. G. Du Bose, and Civil Engineer Archibald L. Parsons, will go first to Charleston, S. C., afterward visiting Pensacola, Key West, New Orleans, and all other ports where the department has property.

Another Doing Inspection Duty.

Chief Boatwain Percy H. Bierce reported for duty at the yard today and was temporarily assigned to the inspection office.

All Stars Hang It On Marines

The All Stars of this city put one over on the fast marines, boys ball team at the yard on Sunday by a score of 10 to 4. Tommy Elynn the star pitcher for the locals had the arctic batters swinging at the atmosphere, while Reardon at first base gave an exhibition of big league work. The catcher of the marine guard played a fast game and did excellent work to hind the bat for his side.

They Must Wait Now

Workmen who failed to place their names on the list for employment before today will now be obliged to wait for the civil service examination following that of July 1.

WRECK IN YARD.

Boston Passenger Train Runs Into a Freight Car.

Passenger train No. 41, from Boston, due here at 2.39 this afternoon, ran into a box car in the Boston & Maine yard today. The car had been set on a siding and was not in enough to clear a train on the main line. The car was smashed up considerably and pushed off the track. The train was delayed about a half hour.
